The electrical and electronic engineering department of Chittagong University of Engineering and Technology hosted a farewell ceremony for its 20 batch students at a hotel in Chattogram on Friday evening.

Speaking as chief guest, CUET vice-chancellor Professor Mahmud Abdul Matin Bhuiyan has emphasised that a degree alone is no longer sufficient in today's rapidly evolving world, said a press release.

‘Technology is changing constantly; hence, you must continuously enrich yourself with new knowledge. This requires a mentality of lifelong learning, a passion for research, morality, leadership qualities, communication skills and the ability to work in teams, he stated.

He further urged the graduating students to commit their knowledge to human welfare and to leverage innovation to elevate the living standards of the people and drive Bangladesh’s development forward.

The ceremony was presided over by Professor Tofael Ahmed, head of the EEE department, and conducted by lecturer Azmal Ahmed.

Professor Kazi Delwar Hossain, dean of the faculty of electrical and computer engineering, attended as special guest, while Professor Nowshad Amin from the Islamic University of Madinah, Saudi Arabia, was present as the speaker.

On behalf of the departing batch, Dibya Jyoti Ghosh, Bristy Paul and Ashraful Alam Tamim shared their reflections.
